WHEN HITLER CRAWLED OUT

The destruction of 185 enemy planes in one day marked the turning point of the war. Hitler missed the opportune moment for the invasion of England. Military leaders with imagination find it good strategy sometimes to give an enemy some rope so as to destroy him.

It would appear that democratic countries cannot prosecute a war without a considerable quota of muddle. Notwithstanding all mistakes, errors and loopholes, the betting on the final issue is in favour of the British Commonwealth.

The war will be long and tough while it lasts, and tougher when it ends. To forestall distress, confusion, a plan should be ready to clasp on as soon as the end comes. Even if work is available, thousands will not be able to settle down to it.

Ten million lives have been lost in the Chinook-Japanes war. How short is a man's memory? It is but a short time since the death of Melville Cox in Japan. That he was deliberately thrown out the window as an act of terrorism is morally certain. Those who hold Chinese girls captive to rape them hourly, are capable of most anything. While we condemn atrocities in one theatre of war, by the sale of materials for munitions, we actively assist crime and cruelty in another. There is little choice between Yellow Devils, brutal Bolsheviks and German savages.

The old-time German was of good type—a good parent, citizen and friend, but the later generations are trained in every sort of ferocity. It was an evil day for the world when Hitler crawled out of his kennel. The same may be said of Stalin and Mussolini. They are living examples of what may be expected when the dregs of humanity comes to the top. The intelligentsia are the first to suffer the crushing blows of tyranny.

When Kaiser Wilhelm walked off in the morning in Tiergarten, there was freedom and friendliness in Germany. Since the advent of Hitler and his gangsters, hatred is the order of the day, everyone is a potential spy, and you can't blow your nose without a permit.

There is no acceptable scheme or adjustment which could bring durable peace to continental Europe. A gigantic change of populations would be a temporary expedient for racial hatreds and religious animosities. If they hate not their neighbor's language, they hate his religion. And who could banish religious intolerance? Communities are torn asunder by political rancour, religious enmity and racial hostility. So goes the world in which the motivating factors are hate and avarice.

What sorrow, disaster and suffering would have been avoided, had Mr. Winston Churchill been at the helm before the storm got under way? Let us hope that he may survive to the end of the conflict. The only man in public life with sufficient driving power to take his place is General Jan Christian Smuts. With either, the Empire would be as safe as it is humanly possible to make it.

Weed Identification

A booklet containing coloured pictures of twenty-six common weeds has just been released by the Agricultural Department of The North-West Line Elevator Association. Your local line grain buyer can obtain a copy for you or you may write to the Association at Winnipeg.

Germination Tests

At the recent meeting of the Manitoba Agricultural and Plant Disease Committee reported that there is a tendency for wheat samples collected in Manitoba to germinate poorly. This may be partly due to the fact that the samples are taken from parts of Saskatchewan and Alberta.

It was recommended that farmers should increase the rate of seeding to 100 lbs per acre. This could be no better evidence of the worth of germination tests made. Any grain buyer of a line elevator company associated with the Agricultural Department will be happy to supply seed samples in to us for testing. Please do not delay, as our laboratory is likely to be taxed to capacity.

Bushels in a Bin

Eight years ago we described a method for calculating the number of bushels in farm granaries or bins. We stated that in order to convert cubic feet to measured bushels it was only necessary to multiply by 0.8. The correct factor is actually 0.78. We rounded off the figure deliberately, partly to simplify calculation and partly because in wooden bins the bulging of the grain at the top pressure of the grain will largely cancel the error involved in using the factor 0.8. In round metal bins or wooden bins which are round and flat, the bulging is very slight, the factor 0.78 should be used.

Soil Erosion

Have you obtained your copy of "Water Erosion of Soils in the Prairie Provinces"? This may be obtained from your Line Elevator Agent.

EMPIRE'S NEW ARSENAL

From Suez, to Singapore stretches a great theatre of war vital to the British Empire. The destiny of Australia and New Zealand, of India, Burma, and Malaya, of the East African and Far Eastern territories depends upon it.

The swift growth of India as a war supply centre for the whole of the Suez - Singapore area is one of the most remarkable signs of the British Empire's worldwide power and solidarity.

India is making rifles and machine guns, small arms ammunition, shrapnel and blank-shells, armour plating and shells, artillery up to six inches, anti-aircraft guns, and bombs and mines. She will soon be making aeroplanes.

Since the beginning of the war India has sent overseas 100,000,000 rounds of small arms ammunition, 200,000 shells, 6,000 rifles, 4,500,000 sandbags, 3,000,000 yards of khaki drill, 150,000 pairs of boots, 20,000 greatcoats, and 20,000,000 yards of medical gauze.

All the present steel requirements of the Middle East and Iraq can be met by India's steelworks.

YOUR INCOME TAX

HOW? WHEN? WHERE? WHO? HOW MUCH?

THIS YEAR, almost every man and woman in Canada will share the burden of paying for the war. A million new taxpayers will pay who never paid before. And the amount of payment will be available to old taxpayers who are faced with substantially increased income taxes.

Canadians are asked to shoulder their share of the war effort cheerfully and willingly. By paying your income tax regularly you help to speed the war effort and bring the day of victory closer. Figure out how much tax you will have to pay, and arrange to pay promptly when due.

Pay by instalments—the easy way—and save interest charges.

Cut out this page and keep it for future reference.

WHO PAYS INCOME TAX?

If you are a single person without dependents, and your income in 1940 was more than \$750.00, you pay general-income tax. If you are a married person without dependents, and your income in 1940 was more than \$1500.00 you pay general-income tax.

If you are a married person with children, you are allowed \$400.00 exemption for each dependent child, in addition to the \$1500.00 exemption.

NOTE: In addition to the general-income-tax you pay National Defence Tax on your total income without any exemption. If you are single and your income is over \$1000.00 if you are married and your income goes over \$1,200.

HOW DO YOU PAY?

Your income tax may be paid in the following ways:

1. The Present Method: At least one-third of the tax to be paid by April 30th, the balance with interest at 5% from April 30th to January 31st. You must pay at least one-third of the estimated tax for four monthly instalments by January, February, March and April, i.e. 1-12 of the estimated tax in each of the said 4 months. The remaining two-thirds may be paid in two monthly instalments in May, June, July and August, i.e. 1-6 of the estimated tax in each of the said 4 months. This will be in the amended law.

2. The Proposed Method: In 8 monthly instalments without interest. To take advantage of this new way of paying, you must pay at least one-third of the tax to be paid on or before January 31st. You must pay at least one-third of the estimated tax for four monthly instalments by January, February, March and April, i.e. 1-12 of the estimated tax in each of the said 4 months. The remaining two-thirds may be paid in two monthly instalments in May, June, July and August, i.e. 1-6 of the estimated tax in each of the said 4 months. This will be in the amended law.

3. The Recommended Method: This method will not be found in

the law but it is a simple method, namely, in eight equal monthly instalments, without interest, commencing January.

To take advantage of the monthly payment plan without interest, each payment must be made on or before the due dates. Otherwise interest will be charged on the total balance remaining unpaid after April 30th.

EXAMPLE OF INSTALMENT PAYING WITHOUT INTEREST

If your estimated tax is \$600.00 you pay one-third of the tax (\$200.00) in four instalments (\$50.00 each) and the remaining two-thirds (\$180.00) in four instalments (\$10.00 each). Your payments are therefore as follows:

On or Before	On or Before	On or Before	On or Before
Jan. 31	Feb. 28	Mar. 31	April 30
\$5	\$5	\$5	\$5

On May 31, June 30, July 31, Aug. 31, \$10 \$10 \$10 \$10 = \$600

However it is recommended that you pay your tax in eight equal monthly instalments of \$75.50 each = \$600.00.

Instalment Income Tax Remittance Forms are available at any post office, or any branch of any bank, or the office of the Inspector for your

District, and their use will ensure accurate and proper allocation of your payment. However, you may pay in any instalment plan by mailing a letter with your name and address plainly stated thereon, clearly indicating the division between Provincial and Dominion Tax payments.

HOW MUCH DO YOU PAY?

The general-income-tax is payable on your net income less exemptions.

If you are single, your exemption is \$750.00. Thus if your total income is \$1,000.00 you must pay tax on \$250.00.

The exemption for a married person is \$1,500.00 plus \$400.00 for each dependent child or grandchild. Thus if you are a married man with two children and a total income of \$2,600.00 your total exemptions are \$1,500.00 plus \$400.00 for each child, or \$2,400.00 in all. So you pay on \$360.00.

Payments: You may send a cheque, Post Office or Money Order, or payment of income tax by mail, to the Inspector of Income Tax for the District in which you reside, made payable to the Receiver General of Canada. Write plainly, and give your name in full. Do not send money or postage stamps in envelopes.
